

Knoll Government

With Solutions for Higher Education and Healthcare

Knoll

Knoll takes great ideas to government, education and healthcare.

Whatever your organization's workstyle mix, Knoll has dynamic furniture options for individual offices, team work areas and common spaces. Furniture with style and flexibility that allows you to create a well designed environment for work, and perhaps a bit of fun.

Since our founding in 1937, Knoll has helped government, healthcare and higher education institutions create facilities that inspire, evolve, and endure. We understand the needs of these organizations, from federal to state and local governments, from high schools and community colleges to public and private universities.

The Knoll commitment to modern design, coupled with leading-edge clean manufacturing technologies, has resulted in our portfolio of ergonomically-friendly products. In addition, for over 25 years, Knoll has been a leader in policies and practices designed to protect the biosphere, conserve natural resources and reduce waste. Knoll is aligned with the U.S. Green Building Council and can help federal, state and local governments, as well as healthcare institutions and educational institutions, achieve Leadership in Energy and Environmental Design (LEED®) certification.

Cover: Reff Profiles™ Private Office

Reff Profiles delivers cost efficient architectural presence for the private office. Refined wood detailing and accessible storage options create a distinguished private office that delivers convenient access to materials and personal items.

Facing: Antenna® Workspaces

Antenna Workspaces with Fence is a freestanding spine that defines boundaries and distributes power and data cables. Fence supports screens, stanchion mounted storage and desktops to create settings for focused work.

Adaptable, functional and intelligently designed to accommodate advanced data and electrical capabilities, Knoll office systems are a sound investment.

1 Dividends Horizon® Workstations

Dividends Horizon creates a technologically efficient workplace and features three panel base options: Standard, Tile-to-the-Floor and Open Base.

Designed by Jeffrey Bennett and Nicholas Dodziuk with David Noel.

2 Reff Profiles™ Administrative Workstations

Reff Profiles responds to spatial organization, harmonizing standard and customizable components with a broad spectrum of materials. Administrative and reception workstations incorporate transaction counters, infill panels, specialized storage units, and modular electrical components.

3 Morrison Workstation

Morrison offers open plan workstations and freestanding desks with distinctive details, proven performance and enduring value. Consistent logic and versatility assure that Morrison product enhancements build on existing components – leveraging the value of your investment.

4 Antenna® Workspaces Big Table

Antenna Workspaces big table works as an adaptable collaborative setting. Back-to-back desktops with shared legs can be linked to form the big table, a collaborative work setting that can support groups of any size in open plan environments, touch-down spaces and meeting areas. The compact center beam supports screens, cantilever shelves, storage cabinets, power components and monitor arms. Designed by Antenna Design.

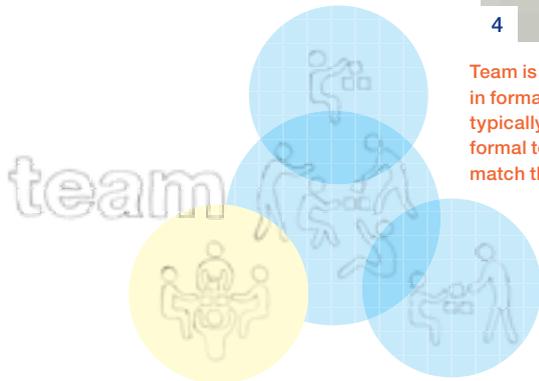

3

4

Team is a group work mode related to specific work goals that occurs in formal and informal meeting spaces. The team work mode is typically project work. However, the nature of team work can flow from formal to casual and the workspaces that support this work should match this ebb and flow.

1

2

3

4

1 Dividends Horizon®

Focusing on the artful contrast of structure and materials, Dividends Horizon offers pragmatic planning and aesthetic opportunities for individual and linked workstations.

2 Currents®

The signature Currents service wall provides ready access to power, data and communications, defining the ultimate in spine-based planning and maximizing off-module applications.

3 Equity®

Equity delivers utilitarian space-savings with center line planning and sleek 120-degree configurations.

4 AutoStrada™

With four planning models, AutoStrada offers a distinctively modern point of view for the perfectly calibrated work environment.

1

Knoll creates inviting private offices with finely crafted desks, storage and companion tables in a wide selection of finishes.

1 Reff Profiles™

Reff Profiles celebrates understated, highly crafted worksurface-mounted and overhead storage components. Profiles reflects Knoll leadership in manufacturing refined wood solutions for the entire work environment.

2 Template™

Template provides a customized backdrop for the private office, combining clean lines with space-maximizing storage. Template private office solutions can combine the Template workwall with freestanding desks or integrate it with peninsula desks.

2

1

2

1 Antenna® Workspaces Private Office

Antenna Workspaces table desks and storage elements create highly efficient focused or shared work areas for private offices. Blending table desks and freestanding and wall mounted storage cabinets provides the flexibility to create the appropriate private office that meets the aesthetic and functional objectives.

2 Dividends Horizon® Private Office

Dividends Horizon unites clean aesthetics and simple design in a versatile system for the private office.

3 Dividends Horizon® Private Office

Dividends Horizon evolves the work environment by creating a layered approach to the office landscape.

4 Reff Profiles™ Private Office

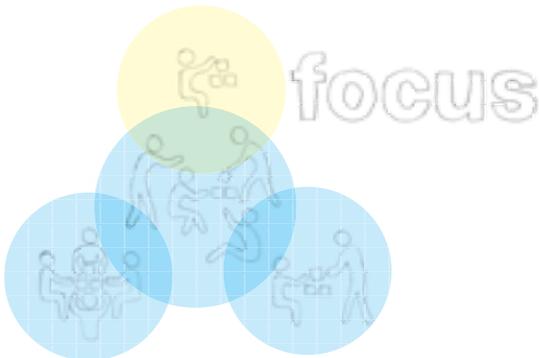

Reff Profiles offices can be individually tailored, yet remain part of a greater organizational whole, leveraging the proportion and scale of desks, three-quarter-height floorstanding storage and overhead storage. Integrated technology tools support day-to-day performance.

3

4

Focus is an individual work mode that occurs within a primary workspace that supports concentration and reduces interruptions. Work in this mode is primarily "heads down."

Knoll work and task chairs are beautifully designed, exceedingly comfortable and ergonomically advanced.

1 Generation by Knoll®

Generation takes the idea of elastic design—where a product rearranges itself in response to its user—to a new level. Designed by Formway Design.

Great for Healthcare environments

2 ReGeneration by Knoll™

Innovative in its simplicity, ReGeneration delivers a unique combination of responsive performance, efficient design and overall value.

Available Spring 2012

Great for Healthcare environments

3 Life® Chair

Ergonomic and ecological design at its best. Designed by Formway Design.

4 Sapper™ Executive Chair

An award-winning classic of elegant line, advanced ergonomics and hand-finished craftsmanship.

Designed by Richard Sapper.

5 EWC Pro™ High-back Task Chair

Traditional, tailored and practical with ergonomic comfort. Designed by Jeffrey Bernett and Nicholas Dodziuk.

6 EWC Pro™ Mid-back Task Chair

Traditional, tailored and practical with ergonomic comfort. Designed by Jeffrey Bernett and Nicholas Dodziuk.

7 EWC Sport™ Task Chair

Supportive and inviting—adaptable to any work environment. Designed by Jeffrey Bernett and Nicholas Dodziuk.

8 EWC Tech™ Task Chair

Efficient aesthetic characterized by a wave-like suspension back. Designed by Jeffrey Bernett and Nicholas Dodziuk.

9 RPM® Chair

Engineered for durability with advanced adjustments. Designed by Carl Magnusson.

10 RPM® High Task Chair

RPM durability, featuring a seat height of 23½"-31¼". Designed by Carl Magnusson.

Great for Healthcare environments

11 Chadwick™ Chair

All-inclusive built-in comfort—just right. Designed by Don Chadwick.

Great for Healthcare environments

12 Chadwick™ High Task Chair

Chadwick comfort, featuring a seat height of 23¼"-30¾". Designed by Don Chadwick.

Great for Healthcare environments

Understated and practical, Knoll ensures the comfort of guests with GREENGUARD® certified seating.

1 Krusin Side Chair

Through an inherent and graceful visual silence, the Krusin Wood Guest Seating Collection maintains a simple linear form that is able to harmonize with a multitude of sophisticated design styles. Designed by Marc Krusin.

2 Crinion Side Chair

Well-proportioned form. Designed by Jonathan Crinion.

3 Ricchio Chair

Carefully contoured in wood with a comfortable scooped back. Designed by Joseph and Linda Ricchio.

4 JR® Chair

Subtle curves in wood complement the harmonious line of the arms and legs. Designed by Joseph Ricchio.

5 Shelton Mindel Side Chair

A streamlined, unassuming contemporary chair. Designed by Shelton, Mindel & Associates.

6 Tubular Brno Chair

Ground-breaking mid-20th Century simplicity still relevant today. Designed by Ludwig Mies van der Rohe.

7 Moment™ Side Chair

Taking its cue from the cantilevered form of the Brno chair, Moment is a streamlined, elegant counterpoint to any work space. Stacks 4 high. Designed by Jeffrey Bennett and Nicholas Dodziuk.

8 MultiGeneration by Knoll Hybrid Chair

MultiGeneration by Knoll has a responsive, open design that supports multiple postures. Designed by Formway Design.

Great for Healthcare environments

9 MultiGeneration by Knoll Stacking Chair

MultiGeneration extends the benefits of the award-winning Generation by Knoll® work chair, promoting comfort and freedom of movement. Designed by Formway Design.

Great for Healthcare environments

10 X3

X3 combines innovation and form. Designed by Marco Maran.

11 CHIP® Chair

Stackable elegance, also available with arms. Designed by Antti Kotilainen.

12 RPM® Side Chair

Maximum comfort and optimum support. Designed by Dragomir Ivcevic.

13 EWC Pro™ Side Chair

Traditional appeal for value-oriented settings. Designed by Jeffrey Bennett and Nicholas Dodziuk.

14 EWC Tech™ Side Chair

Affordable styling for progressive spaces. Designed by Jeffrey Bennett and Nicholas Dodziuk.

15 Spark® Side Chair

A perfect balance of form and function, the chairs are pleasing to the eye, comfortable and efficient for general purpose use, stacking and storage. Stacks up to 10 high on dolly. Designed by Don Chadwick.

Great for Healthcare environments

With versatile designs for indoor and outdoor use, Knoll dining chairs offer practical solutions for dining areas.

1

2

1 MultiGeneration by Knoll® Stacking Chair

MultiGeneration by Knoll stacks 6-high on the floor, 10-high on the dolly. Designed by Formway Design.

2 Sprite Stacking Chair

Futuristic form with a generous seat and inherent lumbar support. Designed by Ross Lovegrove.

3 Cirene Stacking Chair

Elegantly proportioned and generous in scale. Designed by Vico Magistretti.

4 Ricchio Chair

Carefully contoured in wood with a comfortable scooped back. Designed by Joseph and Linda Ricchio.

5 Gigi® Stacking Chair

Spirited versatility offering comfort and flexibility. Designed by Marco Maran.

6 Bertioia Barstool

The classic wire basket, offering strength and durability. Designed by Harry Bertioia.

7 CHIP™ Chair

Stackable elegance, also available with arms. Designed by Antti Kotilainen.

8 CHIP™ Barstool

Lightness and style meet durability. Designed by Antti Kotilainen.

9 Handkerchief Stacking Chair

Graciously scaled, ergonomically sculptural with ample support. Designed by Vignelli Design.

10 X3 Barstool

X3 combines innovation and form. Designed by Marco Maran.

11 Toledo Chair

5 Sapper Multiple Monitor Beam

Sapper single beams come in kits of 3-4 monitors; two beams come in kits of 6-8 monitors. Each beam can hold up to 100 lbs. and can be mounted on a desk with heavy-duty table clamps or on Antenna® Workspaces with the Antenna center beam side mount. Beams incorporate easy-to-use external cable management which keeps wires tidy and accessible

AVAILABLE SPRING 2012

Sapper 50™ Monitor Arm

An innovative monitor arm, Sapper 50 can hold up to 50 pounds for heavier monitors and TV displays. The arm and movement joint are new, but the remaining elements are interchangeable with the existing Sapper Monitor Arm Collection.

Knoll and Sustainable Design

Executive Order 13514 Federal Leadership in Environmental, Energy and Economic Performance requires Federal agencies to reduce greenhouse gas emissions and use environmentally-responsible products. Knoll's commitment to accessible, thoughtful design, coupled with leading-edge clean manufacturing technologies, has resulted in a portfolio of ergonomic and environmentally-friendly products. Our LEED Accredited Professionals are available to help explain how the LEED Certification process works and how Knoll products can help contribute to certification.

For over 25 years, Knoll has been a quiet leader in policies and practices designed to protect the biosphere, conserve natural resources and reduce waste. Our commitment to high environmental standards is mandated by a comprehensive Environmental, Health & Safety Management Plan and our products reflect our partnerships with third-party certification organizations, including the GREENGUARD Environmental Institute, the Forest Stewardship Council, the U.S. Green Building Council's Leadership in Energy and Environmental Design (LEED®) and the International Standards Organization. In fact, Knoll helped Air Quality Sciences develop the furniture model used for testing environmental performance featured in this catalogue and was among the first companies in the furniture industry to submit products for GREENGUARD certification.

Knoll and BIFMA level®

BIFMA level® is the certification program for the Business and Institutional Furniture Manufacturer's Association's (BIFMA) furniture sustainability standard.

In order to achieve a level® certification, a manufacturer must partner with a recognized, independent third-party certification body. Knoll partners with Scientific Certification Systems (SCS), the first to certify products to the level® program; SCS is known for its integrity and rigor.

level® has three conformance thresholds: level 1, level 2 or level 3 certification.

level 3 is the highest award a product can achieve. Knoll is an industry leader in level® 3 certification. Dividends Horizon® was the first systems product in the contract furniture industry to earn BIFMA level® 3 certification. And with several additional products certified level 3, Knoll was the first contract furniture company to earn level® 3 in multiple product categories.

Knoll has achieved level® 3 certification for the following products: Antenna® Workspaces, AutoStrada™, Calibre, Dividends Horizon®, Generation by Knoll®, MultiGeneration by Knoll®, Reff Profiles™, Series 2

The Knoll Sustainable Wood Policy

The purpose of the Knoll Sustainable Wood Policy is to ensure that wood and wood fiber used in the manufacture of Knoll products is obtained from environmentally responsible sources.

The Knoll Sustainable Wood Policy applies to all wood used in the manufacture of our products: solid wood, veneer, Techwood and composite or particleboard, and states that Knoll shall: identify and document the country and district of origin of all wood products it procures; Confirm to the best of its abilities that all suppliers of forest products are in compliance with applicable laws and regulations governing timber harvesting; and require that each forest from which wood or wood fiber is derived for Knoll products has a sustainable forest management program in place that is certified by an independent third party.

To learn more about the Knoll commitment to sustainable design, please visit knoll.com/environment.

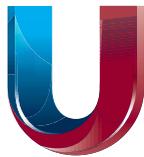

Knoll U.S. Communities

U.S. Communities Government Purchasing Alliance is a nationwide government cooperative purchasing program that assists local and state government agencies, not for profit hospitals, school districts (K-12), community colleges, public universities, and non-profits in reducing the cost of purchased goods through pooling the purchasing power of public agencies nationwide. This is accomplished through competitively solicited contracts for quality products through lead public agencies in accordance with their public purchasing rules and regulations. Although each government may have different purchasing procedures to follow, applying these competitive principles satisfies the competitive solicitation requirements of most state and local government agencies.

The Office Furniture Contract was competitively solicited by County of Fairfax, Virginia. All documents can be viewed on Knoll's website, www.knolluscommunities.com. Knoll is committed to providing the highest quality furniture solutions to local and state government agencies, school districts (K-12), higher education and non-profits. Please contact your local Knoll Government Sales Representative or email uscommunities@knoll.com for more information.

Knoll GSA & U.S. Communities Leasing Information

With an increased focus on reducing government spending, leasing has become a favored alternative to purchasing among government agencies. Knoll can provide creative solutions that meet government procurement regulations and assist you in obtaining the quality furniture you need without impacting your capital budget. Please contact your local Knoll Sales Representative for current lease rates.
